**The Community Preservation Fund (CPF)** is a voter-approved 2% tax on real property transfers in the five East End Towns. Since its inception, the Fund has generated over \$300 million in Southampton Town and has preserved nearly 3,000 acres of farmland, open space, and parks. The CPF is effective until the year 2030 to assure the protection of our most valuable asset, the beautiful land around us.

**Did you know?**  
... The Town of Southampton offers at least 26 farmstands providing a variety of local, fresh produce.

## Farmland

The Wölffer Farm contains 115 acres of preserved farmlands located in the Village of Sagaponack. The lands contain sweeping vistas of vineyards and horse paddocks, ponds and meadows. Preservation of these bucolic fields was accomplished in 2001 in partnership with Suffolk County. This farm continues to produce fine wines and provide equestrian opportunities. The beautiful fields can be viewed on the north side of Montauk Highway entering the Village of Sagaponack.

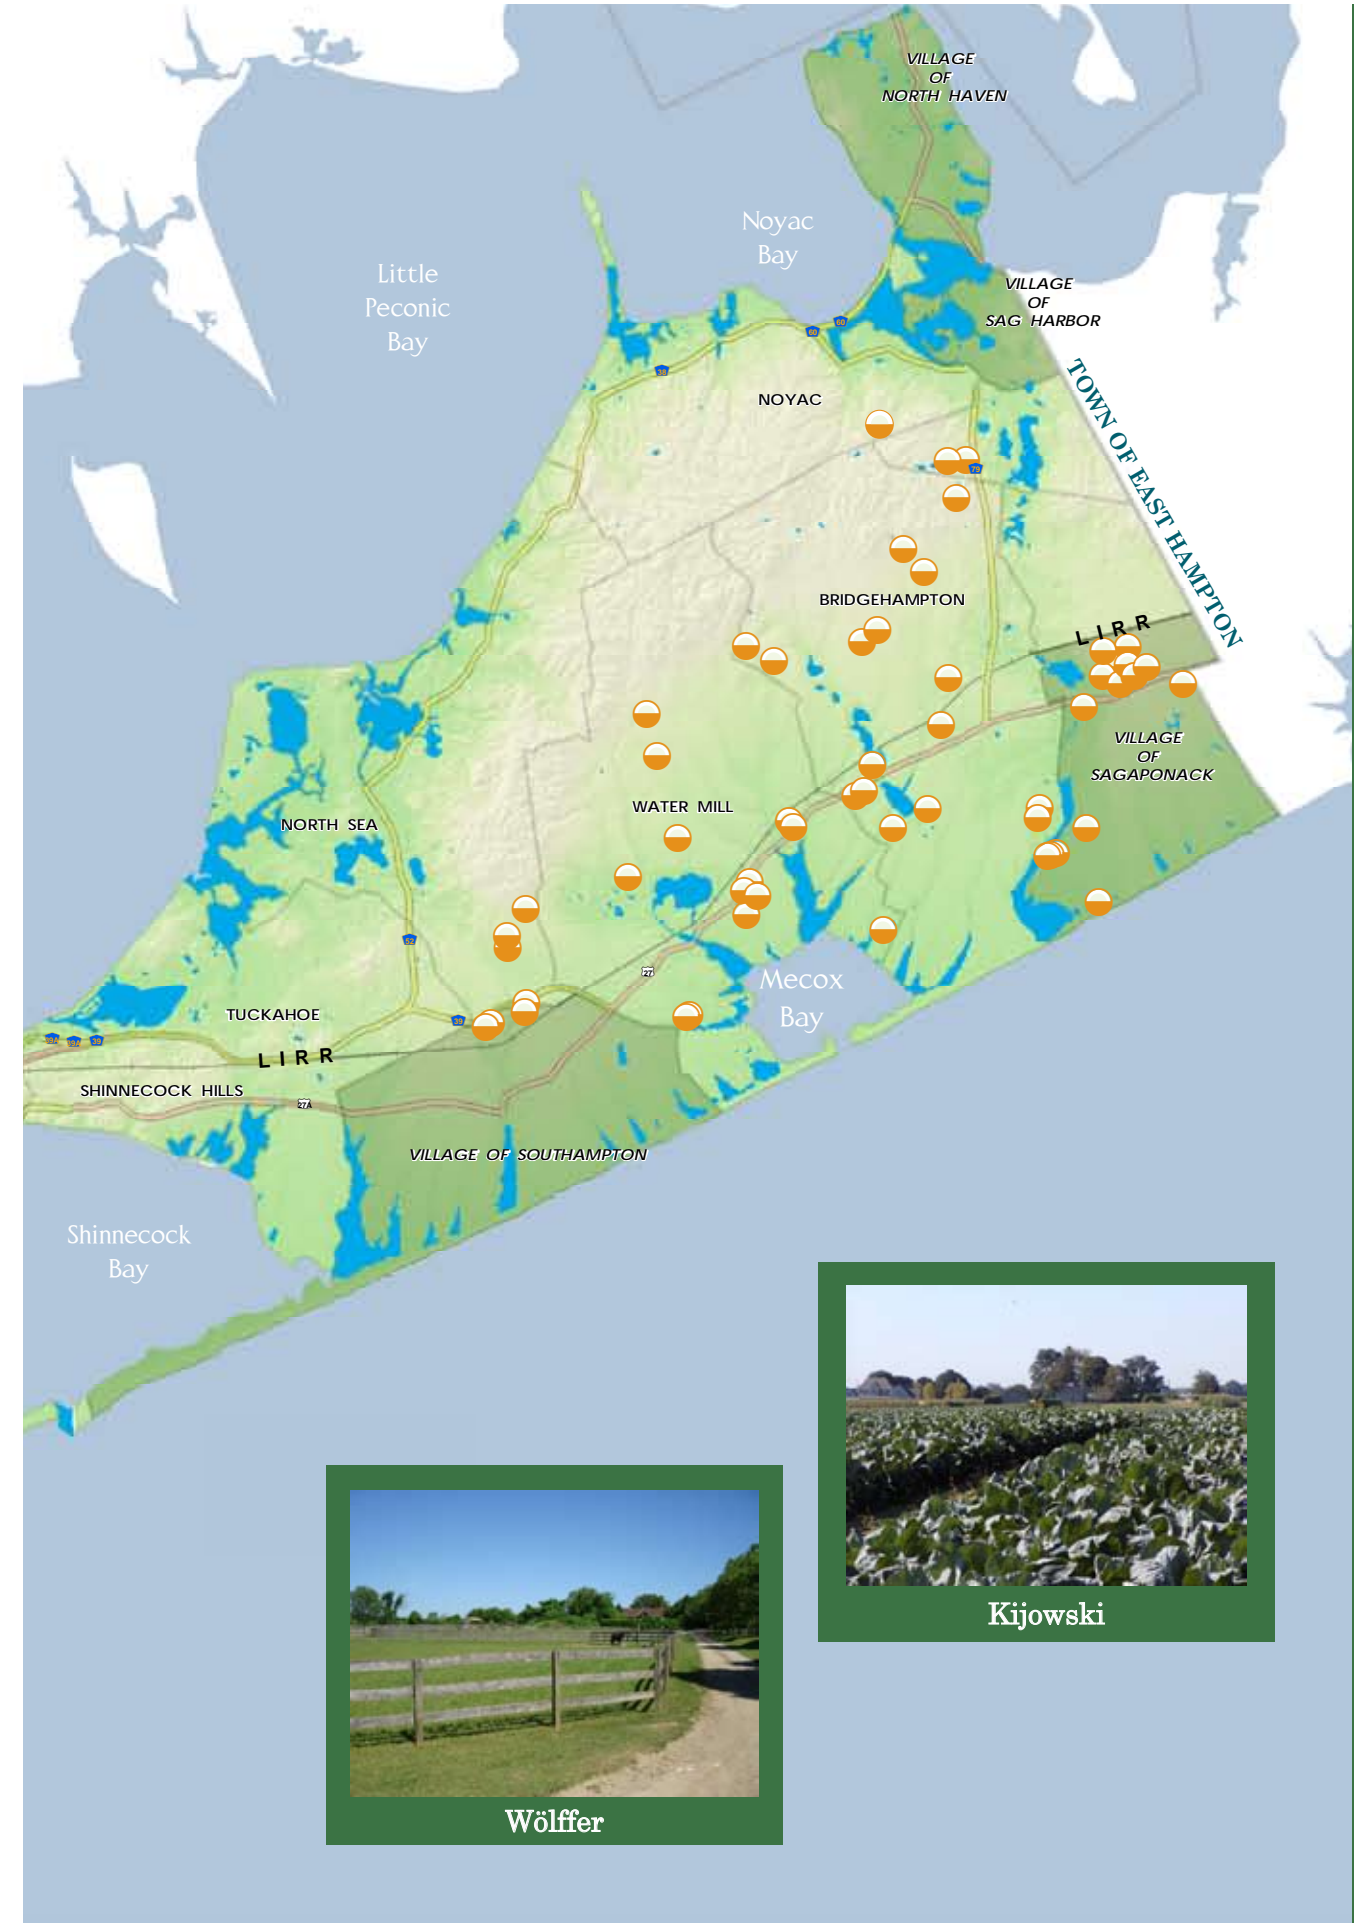

# Farmland

The Kijowski Farm contains 99 acres of preserved agricultural soil in East Quogue. The farmland was protected in 2004 and assures that this working farm remains in agriculture. The Kijowski family has been farming the land since 1924 and the property continues to produce field crops including potatoes, strawberries, corn, cabbage, string beans and grains. Fresh produce is sold both at nearby farm stands, as well as on the wholesale market. This protected land adjoins the 57-acre preserved Wright family farm.

**Did you know?**  
... Since the start of the Community Preservation Fund, over 900 acres of farmland have been saved from development.

The White family has farmed this land since arriving on these shores 300 years ago. This 25-acre farm field is the only oceanfront farmland remaining in the Town of Southampton and provides stunning views of the sparkling Atlantic in one direction and sweeping green farm fields in another. The Town also preserved the existing cottages to further retain the rural character and the beautiful dunes on this property.

Wölffer

Kijowski

The Conklin Farm provides sweeping vistas along the hilly moraine in Water Mill. This farmland completes a 235-acre swath of protected farmland along the Scuttlehole Road corridor. The preservation includes an iconic potato barn visible from the road. In 1921, the Conklin family acquired this farmland, which continues to provide both potatoes and corn.

### Did you know?

... Community Preservation Fund has preserved over 230 acres of barrier island beach and wetlands.

## Wetlands

This 4-acre tidal marshland parcel is located in the Cow Neck Area of North Sea and is part of over 1,200 acres of coastal marshes, wooded shorelands and tidal creeks. The land is part of a larger preserve surrounding Scallop Pond, which is home to waterfowl and raptors and provides crucial habitat for marine life.

Wetlands not only serve to maintain the ecology and biodiversity of the Town, but provide vital flood protection and pollution control.

## Open Space/Greenbelt

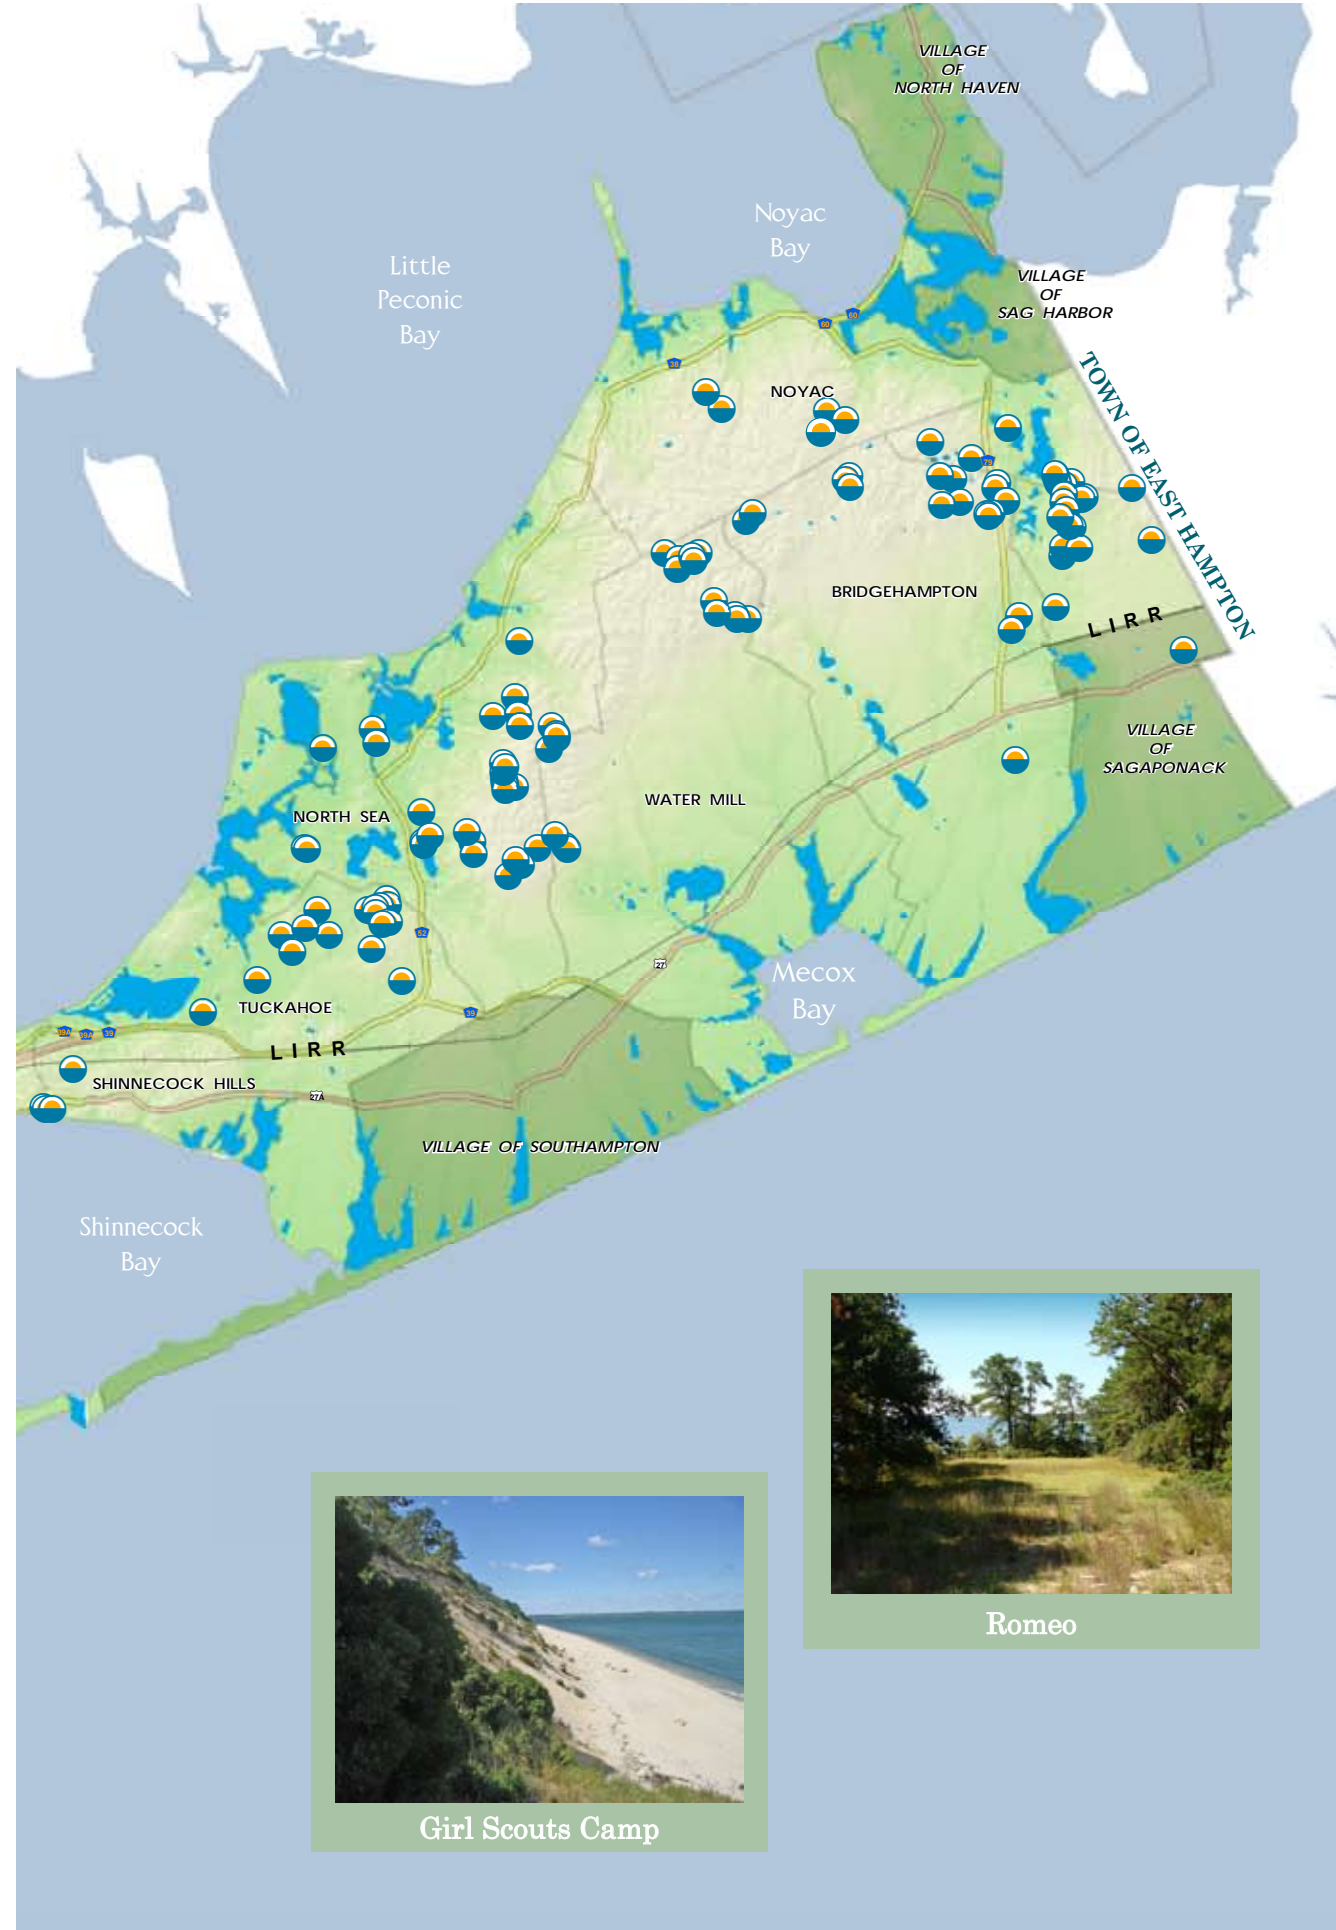

The former Girl Scouts Camp located in northern Hampton Bays was acquired in 2007. The project totals 66 acres of rolling woodlands and expansive views of Peconic Bay from high bluffs. The property is named Squiretown Park and will remain essentially in its natural state with the Paumonak Path running through the land. Future plans include a bay front beach and continued activities, such as yoga and art classes, in The Lodge located on the property.

**Did you know?**  
... The Long Pond Greenbelt is home to at least 84 different bird species.

Southampton

The West Neck Hills preservation area comprises 102 acres of scenic forests and swampland. This property is located in the Bullhead Bay area of Southampton.

### Did you know?

... The Community Preservation Department operates the Long Pond Greenbelt Nature Center at 1061 Bridgehampton-Sag Harbor Turnpike, Bridgehampton. The Center hosts a summer lecture series and fall nature nights.

Sag Harbor

## Hampton Bays

The Town has acquired over 14 acres along the barrier beach island in Hampton Bays ensuring that dramatic water views will endure and wildlife habitat will be protected in this important natural resource area.

Pine Barrens

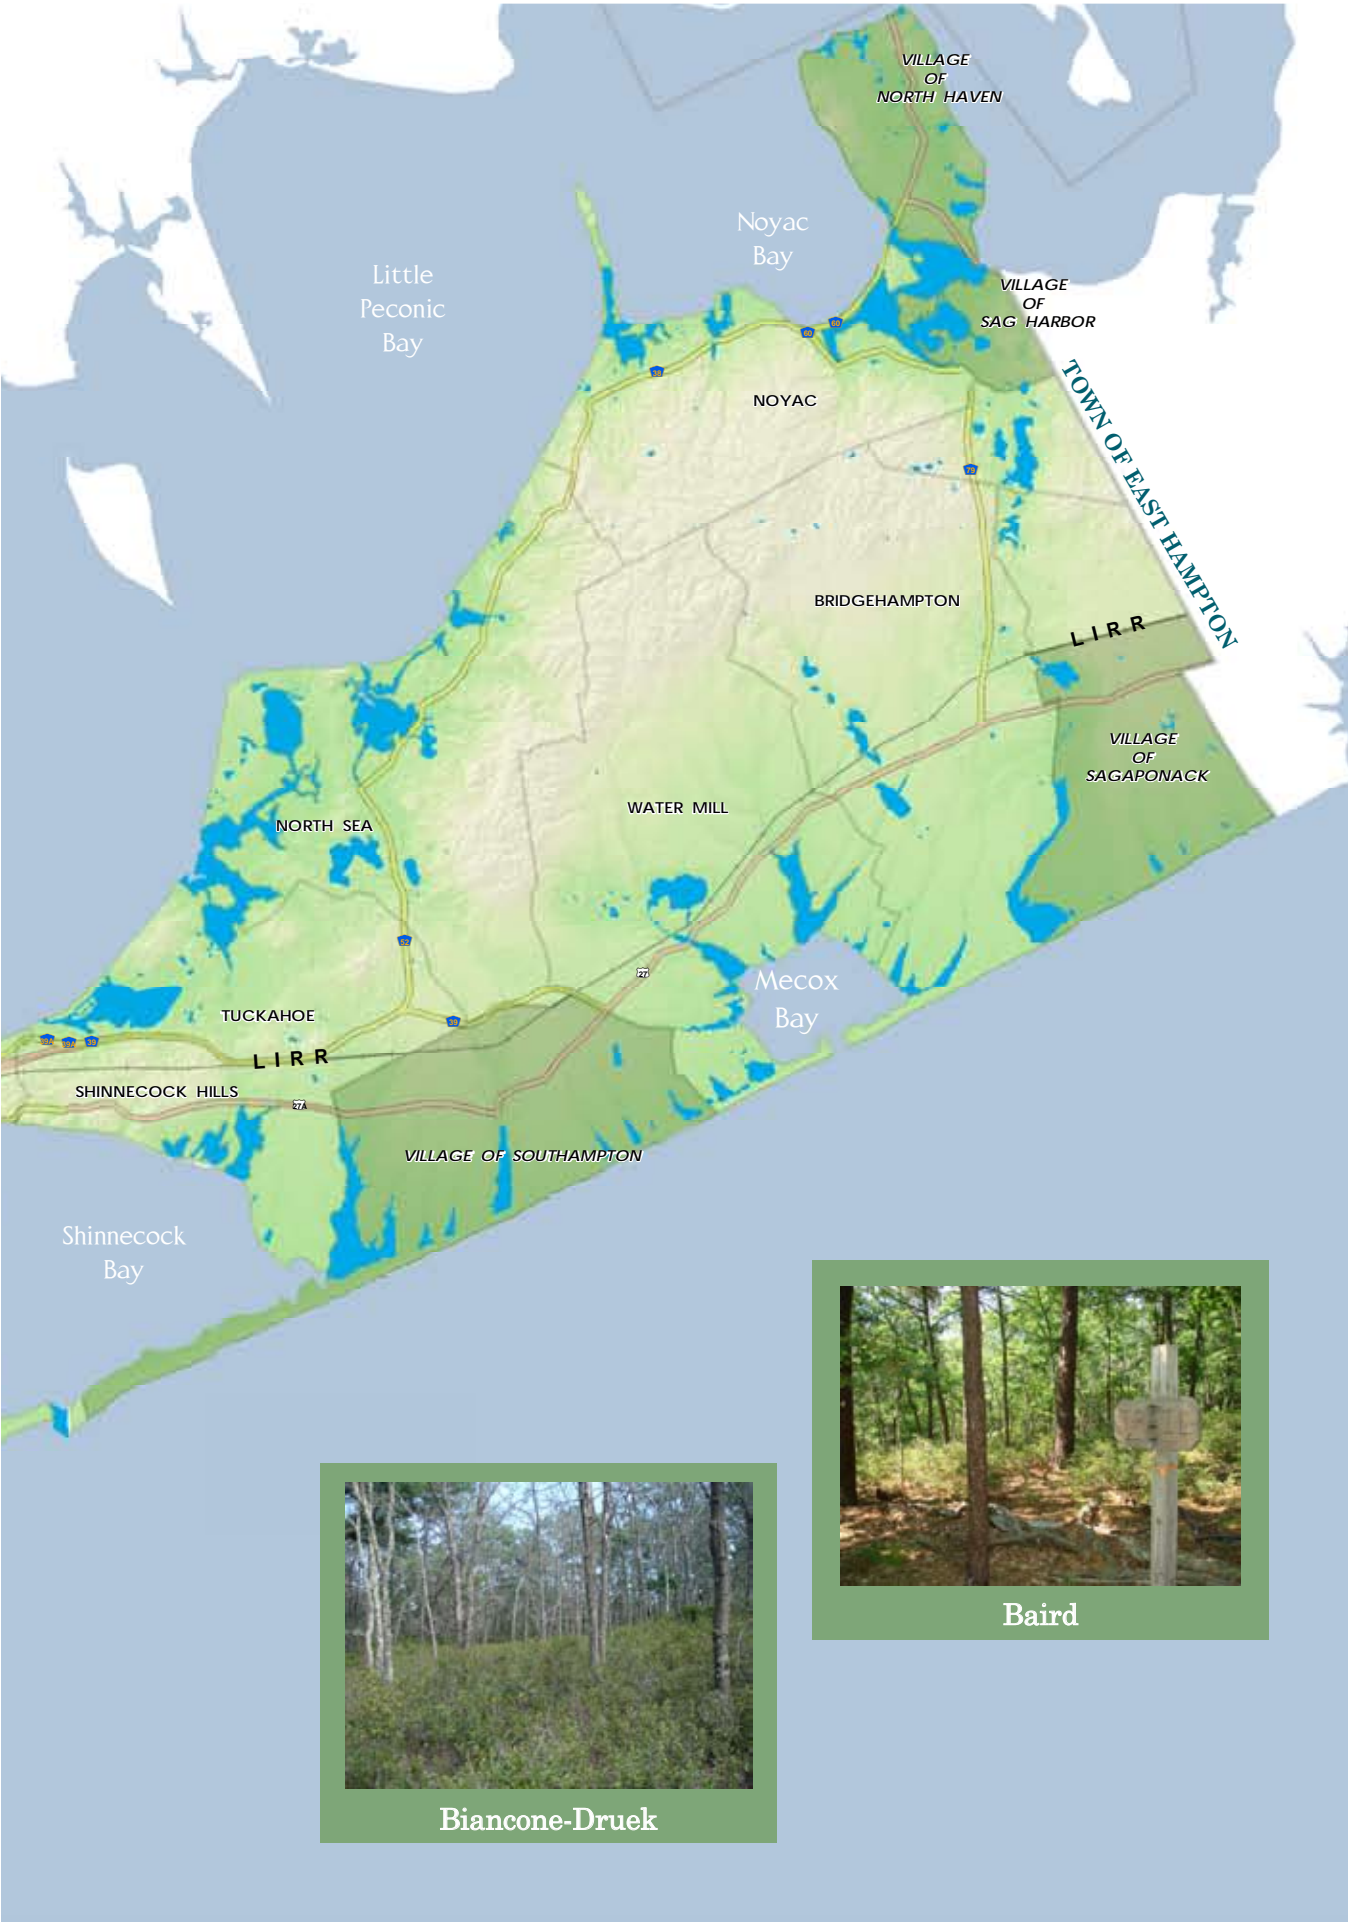

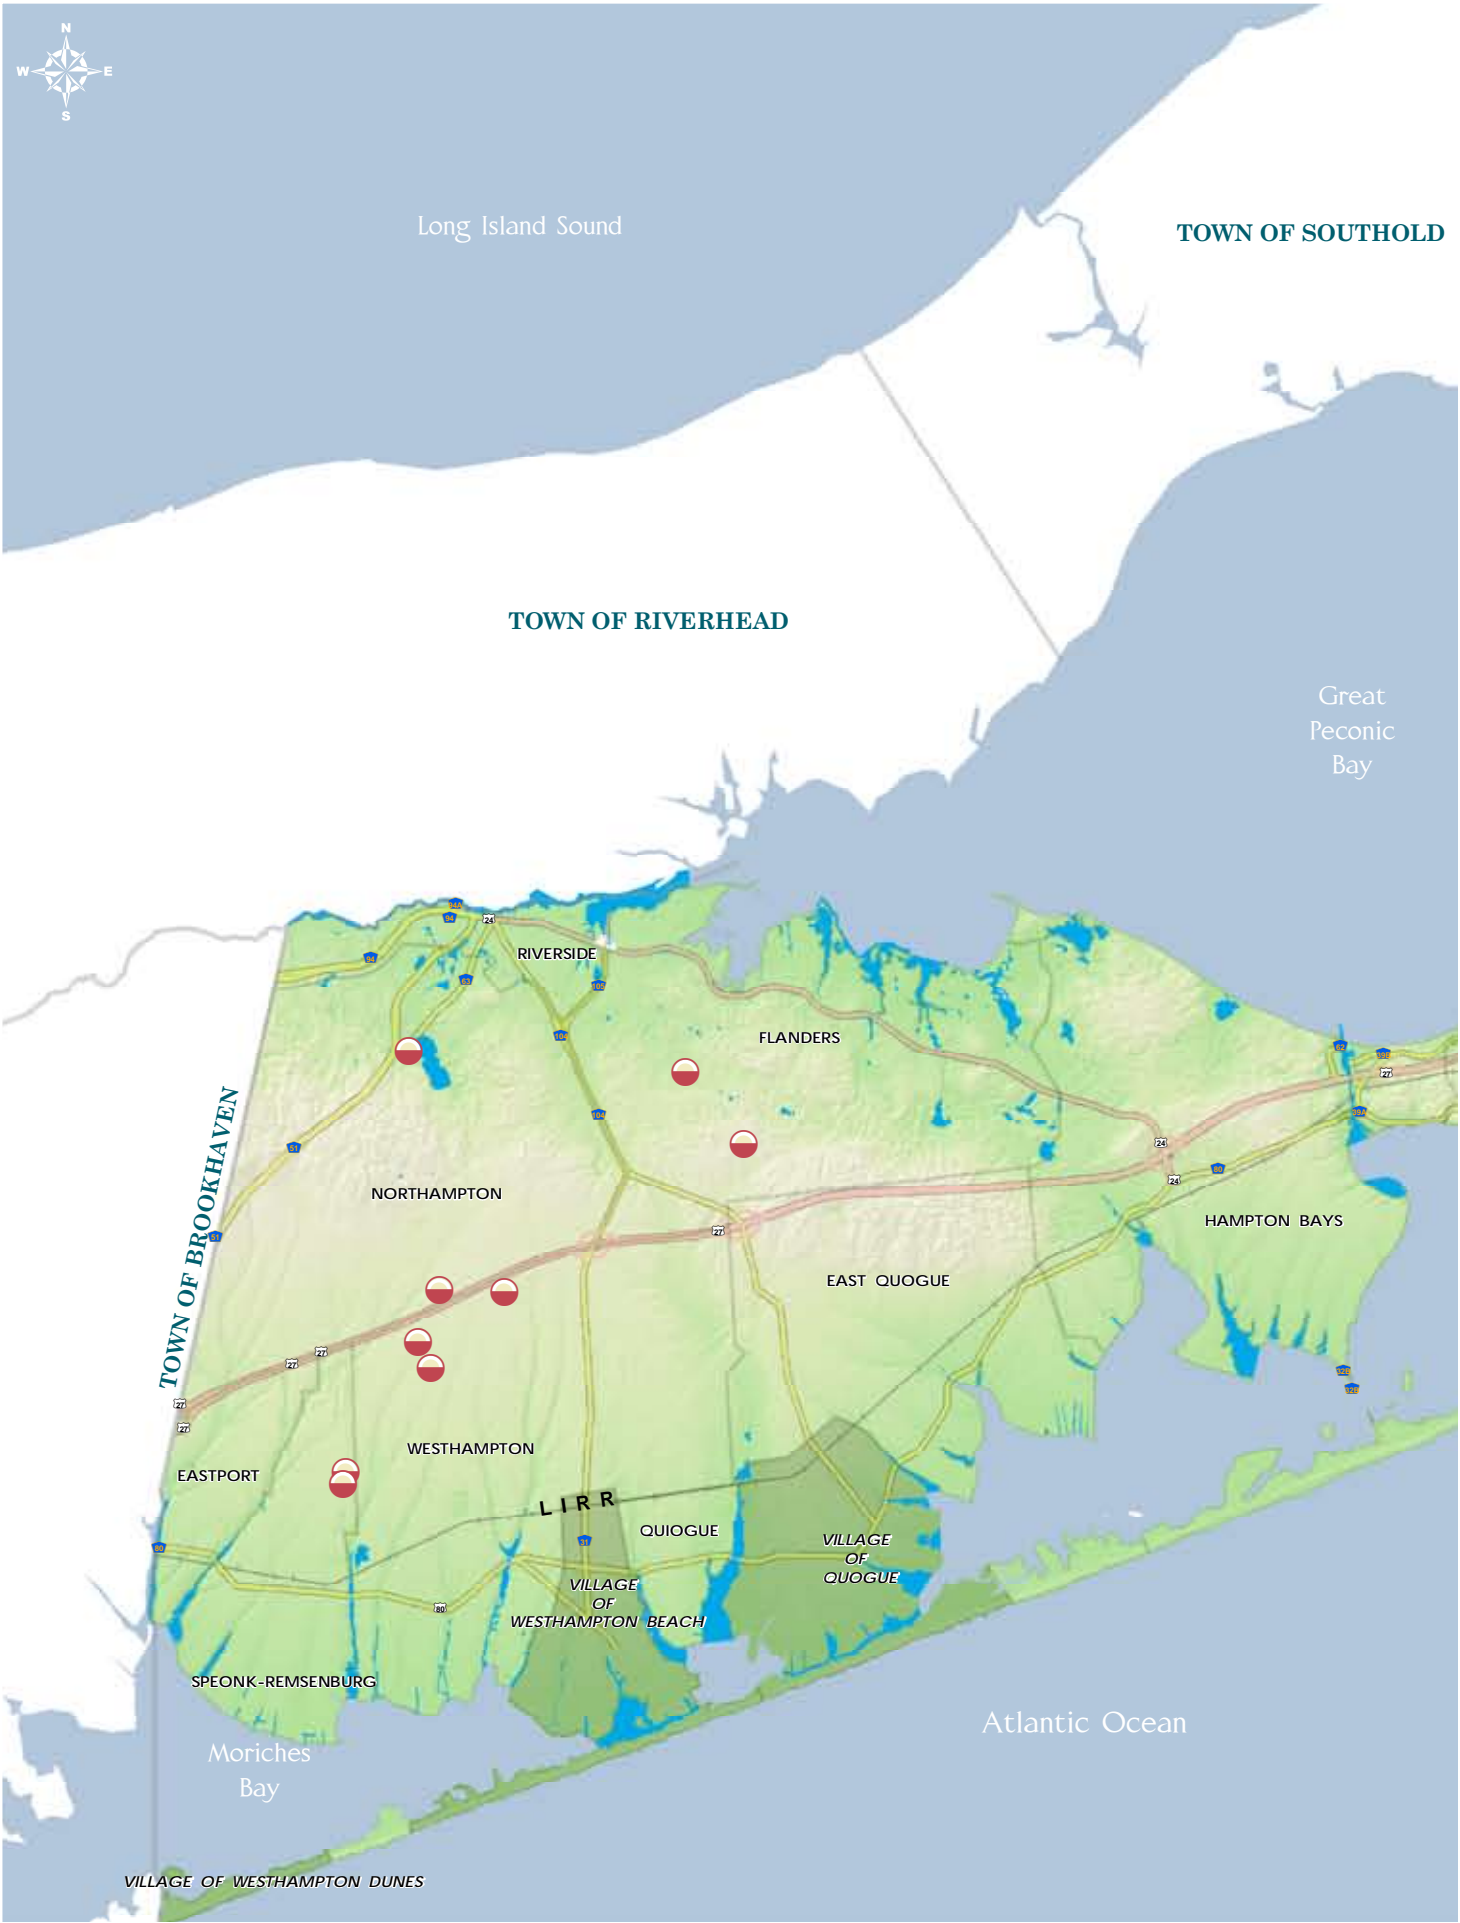

### Did you know?

... Wildwood Lake is a 64-acre fresh body of water in the Town of Southampton portion of the Central Pine Barrens.

## Central Pine Barrens

The Central Pine Barrens is a near-wilderness region that includes Southampton Town. It is home to the dwarf pine plains, a globally endangered forest ecosystem, as well as a large assortment of wildlife, an assemblage of pitch pine-oak forests, coastal plain ponds, marshes and streams. The Pine Barrens are the sole source of drinking water for the area.

**Did you know?**  
... The Community Preservation  
Department Office is now located at  
24 West Montauk Highway, Hampton Bays  
in the renovated Barkas House.

Historic Places

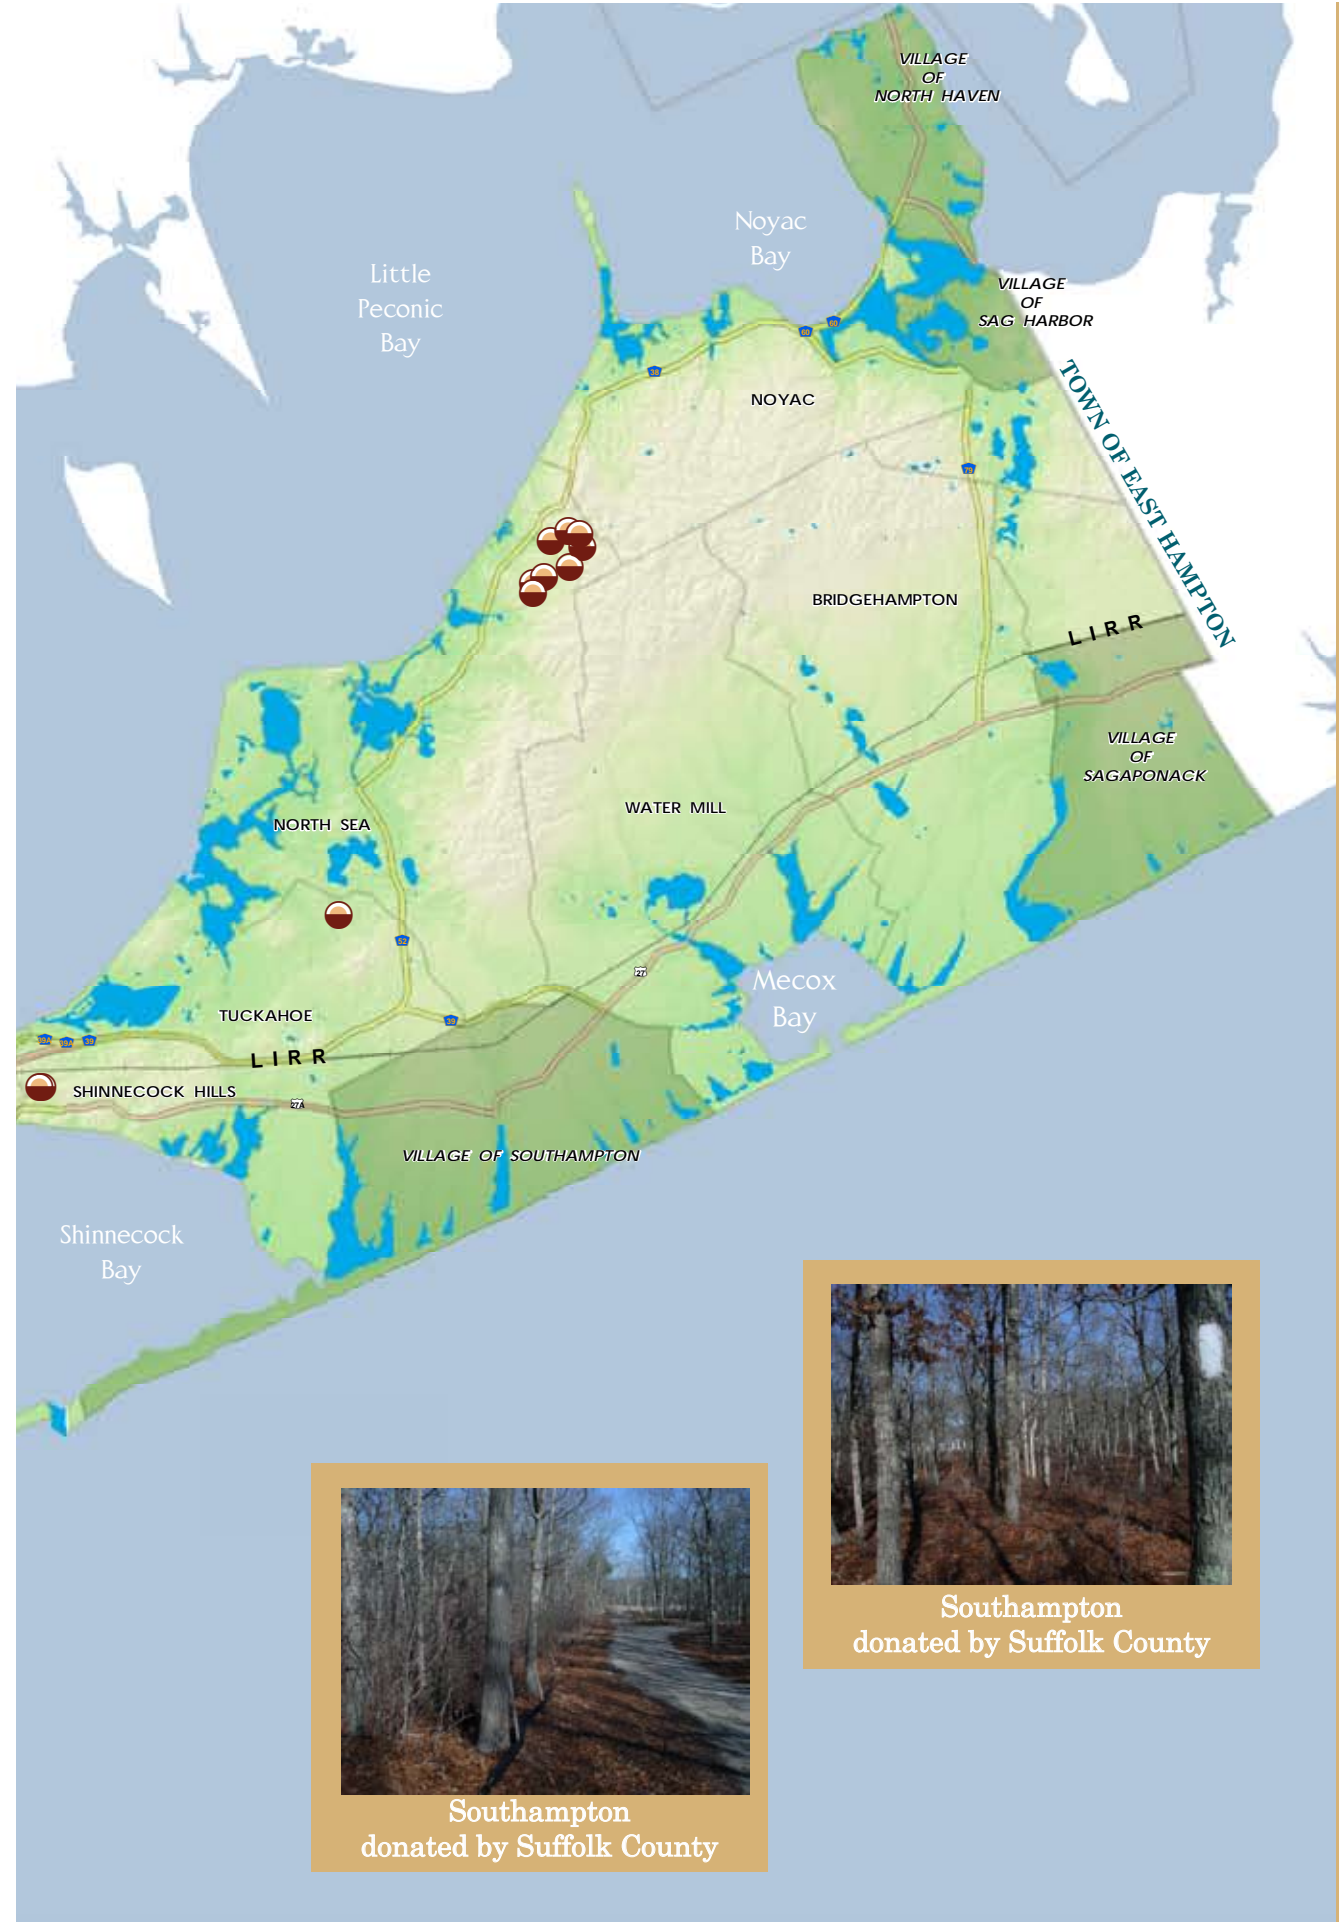

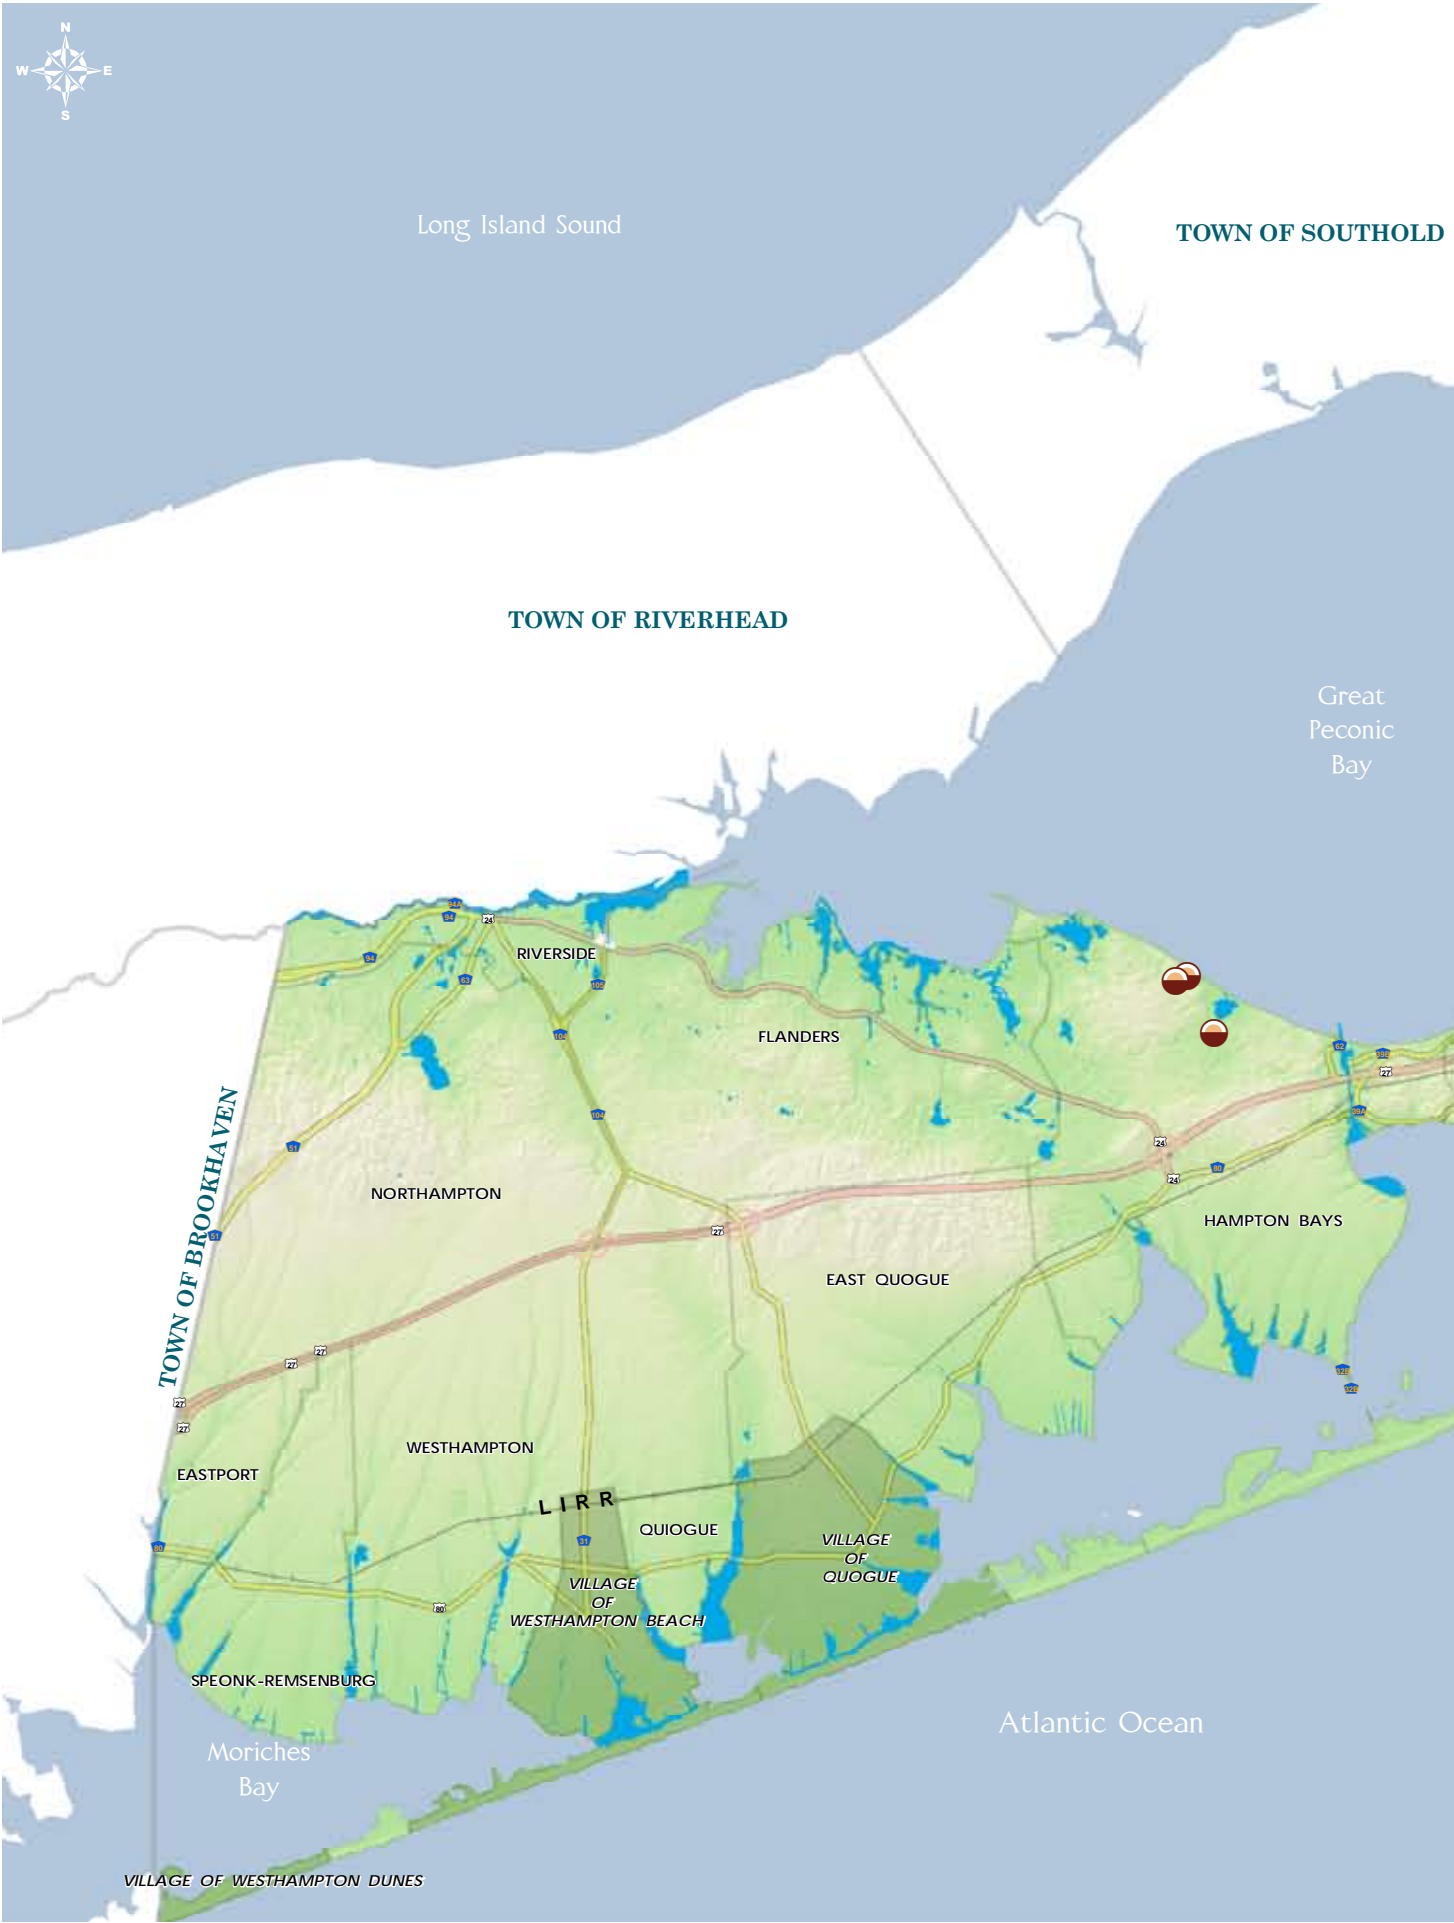

The historic Nathaniel Rogers House was acquired in 2003 and is currently undergoing renovation led by the Bridgehampton Historical Society. This Bridgehampton landmark sits on almost six acres of sweeping open space in the heart of this bustling hamlet. Once restored to its former grandeur, this graceful Greek Revival home will house the Historical Society and will be open to the public.

## Trails

There are several trail systems throughout Southampton Town. The most well known is the Paumanok Path, a 125-mile trail stretching from Rocky Point in Brookhaven Town to Montauk Point in East Hampton Town. Lands acquired in this area are essential to linking scenic hiking trails from Tuckahoe Woods eastward to the Village of Sagaponack.
